PART III

RESERVATION OF MINERALS AND ROYALTY

16. (1) Notwithstanding the provisions of any other Act or law, or of any land grant or other instrument, the property in all minerals is vested in the Crown.

(2) This section shall apply in respect of all mineral lands and in respect of all other lands (including reserved lands) in the State.

17. (1) Subject to this section, royalty shall be payable to the Minister on all minerals recovered from mineral lands and—

(a) sold or intended for sale;

or

(b) utilized or to be utilized for any commercial or industrial purpose.

(2) The amount of the royalty shall be two and one half per centum, or in the case of extractive minerals, five per centum, of the value of the minerals as assessed for the determination of royalty.

(3) The Minister shall assess the value of minerals for the determination of royalty.

(4) The assessed value shall be such as, in the opinion of the Minister, fairly represents the value of the minerals immediately upon recovery from the earth.

(5) The Minister shall cause a copy of his assessment of the value of any minerals to be served—

(a) upon the holder of the lease in respect of the mine from which the minerals were recovered;

or

(b) in the case of a private mine, upon the proprietor of the private mine.
(6) The person upon whom a copy of an assessment is served under subsection (5) of this section may within sixty days after the date of service appeal against the assessment to the Land and Valuation Court.

(7) Upon the hearing of any such appeal the Land and Valuation Court may vary the assessment of the Minister to such extent as it thinks fit.

(8) The Minister may, with the concurrence of the person liable to pay royalty determine that royalty shall be payable according to the weight or volume of minerals recovered and royalty shall thereupon be payable by that person in accordance with that determination.

(9) Royalty may be recovered by the Minister as a debt due to him in any court of competent jurisdiction.

(10) Royalty shall not be payable on precious stones.

18. The property in minerals shall pass to the person by whom the minerals are lawfully mined upon, and in consideration of, payment of royalty or if royalty is not payable in respect of the minerals, upon recovery of the minerals.

19. (1) Where—

(a) a person is divested of his property in any minerals under this Act;

(b) mining operations have been commenced before or after the commencement of this Act for the recovery of any of those minerals or for the purpose of ascertaining whether any of them may be profitably exploited;

and

(c) an application is made in writing to the Minister within three years after the commencement of this Act for a declaration under this section, and the application is supported by such plans and information as the Minister may require,

an area determined in accordance with this section shall subject to this section be declared by proclamation to be private mine and where such a declaration is made the mine shall, subject to this section, be exempt from the provisions of this Act.

(2) The Minister may reject an application under subsection (1) of this section where no mining operations have been conducted on the land subject to the application within a period in excess of twelve months before the date of the application, but otherwise no application shall be rejected on the ground of the discontinuance of mining operations.
(3) The Minister may reject an application under subsection (1) of this section where, in his opinion, the mining operations in the area to which the application relates have been insignificant, or have not been genuinely conducted for the recovery of minerals, or for the purpose of ascertaining whether a deposit of minerals that may be profitably exploited exists.

(4) The area to be declared a private mine under this section shall be the whole of the area, comprised in the application, in which the prospective proprietor of the mine held property in minerals immediately before the commencement of this Act, and which is reasonably required for exploitation of minerals.

(5) In the event of any difference between the Minister and the applicant for the declaration as to the area to be declared a private mine under this section, the applicant, or the Minister, may apply to the Land and Valuation Court for a determination of the difference.

(6) The Land and Valuation Court shall, upon the hearing of an application under subsection (5) of this section, determine the area to be declared a private mine in such manner as it considers just and reasonable.

(7) The Governor may, by proclamation, vary or revoke a declaration under subsection (1) of this section if he is of the opinion that the whole or any part of the private mine is not being effectively operated.

(8) A declaration under this section shall not be varied or revoked unless the warden's court has determined that proper ground exists for the proposed variation or revocation of the declaration under subsection (7) of this section.

(9) Royalty is, subject to and in accordance with the provisions of this Act, payable upon extractive minerals recovered from a private mine but is not payable upon any other minerals so recovered.

(10) The proprietor of a private mine who is liable to pay royalty upon extractive minerals may apply to the Land and Valuation Court for an order that any other person, named in the application, should indemnify him wholly or partly for the payment of that royalty.

(11) The Court may, upon an application under subsection (10) of this section make such order for indemnity as it considers just and equitable having regard to the relative proportions in which the proprietor and the other person or persons, named in the application, derive profit from the operation of the mine.

(12) While a mine continues as a private mine under this Act, the property in any minerals recovered from the mine shall—

(a) in the case of all minerals except extractive minerals pass to the proprietor of the mine upon recovery of the minerals; or
(b) in the case of extractive minerals pass to the proprietor 
of the mine upon, and in consideration of, payment of 
royalty,
and any contract, agreement, assignment, mortgage, charge or other 
instrument in operation immediately before the commencement of 
this Act and relating to proprietary rights in the minerals shall, 
subject to its terms, apply to the minerals so recovered upon the 
passing of property in those minerals in accordance with this 
subsection.

(13) Any interested party may, by application to the Land and 
Valuation Court, seek the determination of any question or dispute 
as to the effect or enforcement of a contract, agreement, assignment, 
mortgage, charge or other instrument affected by the provisions of 
subsection (12) of this section.

(14) The Court may, upon the hearing of an application under 
subsection (13) of this section make such orders as it considers 
necessary or expedient to give effect, consistently with the provisions 
of this Act, to the intendment of the contract, agreement, assignment, 
mortgage, charge or other instrument or to achieve a just settlement 
of any matters of dispute.

(15) Land comprised within a private mine shall not be subject to 
any mining tenement under this Act.

(16) An application for the declaration of a private mine may be 
made under subsection (1) of this section by the person divested 
of his property in the minerals in respect of which the declaration 
is sought, or a person who, immediately before the commencement 
of this Act, held any interest in those minerals in pursuance of any 
contract, agreement, assignment, mortgage, charge or other 
instrument.

(17) Where—
(a) a person is divested of his property in any minerals under 
this Act;
(b) a mine is established at any time before or after the com­
 mencement of this Act for the recovery of the minerals;
and
(c) an application is made by the person so divested of his 
property in the minerals or a person lawfully claiming 
under him to the Minister for the payment of royalty 
under this section,
the Minister shall pay all royalty collected upon such of those minerals 
as are recovered after the date of the application to the person so 
divested of his property in the minerals or the person or persons 
claiming under him.

(18) An application shall not be made under subsection (17) of this 
section in respect of extractive minerals.
(19) The Minister may, subject to the rules of the Supreme Court, refer an application under subsection (17) of this section to the Land and Valuation Court.

(20) Where an application is so referred to the Land and Valuation Court, the Court shall determine whether the application is valid and, if so, to whom, and in what proportions, the royalty should be paid.

(21) Where the property in the minerals in any land was, immediately before the commencement of this Act, vested in a person who was then the proprietor of an estate in fee simple in the land, that person if he remains the proprietor of an estate in fee simple in the land or, if not, the person who is, for the time being, the successor in title to that person shall, subject to subsection (11) of this section, be the sole legitimate claimant to royalty under subsection (17) of this section.

(22) A person may by instrument in writing lodged with the Director of Mines divest himself of any actual or potential right to claim royalty under subsection (17) of this section, in favour of any other person named in the instrument and thereupon that person or a person claiming under him shall be the sole legitimate claimant to royalty under subsection (17) of this section.

(23) A right to claim royalty under subsection (17) of this section shall not be transferred otherwise than in accordance with this section.

(24) The Director of Mines shall maintain a register of the instruments lodged with him under subsection (22) of this section.

(25) The register and any such instrument shall, upon payment of the prescribed fee, be available for inspection by any member of the public.

(26) Where a person, upon application to the Land and Valuation Court, proves to the satisfaction of the Court that he was immediately before the commencement of this Act, in adverse possession of minerals, and that, on the balance of probabilities, he would, if this Act had not been enacted, have acquired an indefeasible title to the minerals, the court may order that the provisions of this section shall apply to that person in all respects as if he had been divested of property in those minerals by this Act, and thereupon the provisions of this section shall apply accordingly.

(27) The court may, in the course of proceedings under subsection (26) of this section make such orders as it thinks just to ensure, as far as reasonably practicable, that adequate notice of the application is received by persons who may have had, immediately before the commencement of this Act, a better enforceable right to the minerals than the applicant, and to ensure that the interests of any such persons are adequately protected.
PART IV
PROSPECTING FOR MINERALS

(2) An application for a miner’s right must be accompanied by the prescribed fee.

22. (1) A miner’s right shall, subject to this Act, authorize the holder to prospect for minerals (except precious stones) and to peg out a mineral claim in conformity with the regulations.

(2) A miner’s right shall not authorize the conduct of mining operations that involve disturbance of any land by machinery or explosives.

(3) A miner’s right shall have no force or effect in relation to a precious stones field.

(4) Any number of claims may be pegged out by virtue of a single miner’s right.

23. (1) The area of a mineral claim must not exceed the maximum permissible area stipulated by the regulations.

(2) The maximum permissible area of a mineral claim may vary according to the nature of the minerals in respect of which the claim is pegged out.

24. (1) Application for registration of a mineral claim must be lodged at the office of a mining registrar within thirty days after the day on which the claim is pegged out.

(2) The warden’s court may extend the time for lodgment of an application under this section.

(3) A mining registrar shall, subject to this Act and any order of the warden’s court, register a mineral claim upon receipt of due application for registration of the claim in the prescribed form and accompanied by the prescribed particulars.

(4) A mining registrar may refuse to register a mineral claim if he is satisfied that before the claim was pegged out an application had been made and lodged with the Director of Mines under Part V
of this Act, for a licence under that Part in respect of an area comprising the claim, or any portion thereof, and that the application has not been refused.

(5) If application for registration of a mineral claim is not made as required by this section, or if the mining registrar lawfully refuses to register the claim, the claim shall lapse.

25. (1) A mineral claim shall confer upon the owner of the claim an exclusive right, subject to the provisions of this Act, to conduct mining operations upon the area comprised in the claim and to apply for a mining lease in respect of that area.

(2) The owner of a mineral claim is not authorized under the provisions of this section to conduct operations involving the removal from the area of the claim of an amount of minerals, or soil and minerals, exceeding one tonne unless the owner of the land on which the claim is situated consents to the removal thereof, or, in the absence of such consent, the warden’s court authorizes the removal thereof.

(3) The ownership of a mineral claim shall not confer any right—

(a) to sell or dispose of any minerals recovered in the course of mining operations;

or

(b) to utilize any such minerals for any commercial or industrial purpose.

(4) A mineral claim shall have no force or effect in relation to precious stones.

26. (1) A mineral claim shall not be transferable.

(2) Where an application has not been made for a lease in respect of land comprised in a mineral claim within twelve months after registration of the claim, the claim shall lapse.

27. Where a claim lapses under this Part, land that was previously comprised in the claim shall not be again pegged out as a claim by or on behalf of the person who previously held the claim without the approval of the warden’s court.
PART V

EXPLORATION LICENCE

28. (1) Subject to this Act, the Minister may grant to any person an exploration licence authorizing him to prospect for minerals (other than precious stones and extractive minerals) within an area comprised in the licence.

(2) The Minister shall, at least twenty-eight days before he grants an exploration licence under this Part, cause notice to be published in the Gazette specifying the area over which he proposes to grant the licence.

(3) The area in respect of which an exploration licence is granted shall not exceed two thousand five hundred square kilometres unless, in the opinion of the Minister, circumstances exist that justify the grant of a licence in respect of a greater area.

(4) A licence granted under this section shall authorize the licensee, subject to the provisions of this Act and the conditions of the licence, to carry out such operations in prospecting for minerals as may be authorized by the licence.

(5) No claim (other than a precious stones claim or a claim in respect of extractive minerals) shall be pegged out and no lease shall be granted over land comprised in the licence otherwise than by or to the licensee except with the consent of the licensee.

(6) An exploration licence may be granted to the Director of Mines, and in obtaining and holding such a licence the Director shall be exempt from the provisions of sections 29, 31 and 32 of this Act.

29. (1) An application for an exploration licence shall be in writing and shall be lodged with the Director of Mines.

(2) The applicant shall forward with an application for an exploration licence:

(a) the prescribed application fee;

(b) a map on which are delineated the boundaries of the area in respect of which the licence is sought;

(c) a proposed scheme of exploration of the area in respect of which the licence is sought, with a statement of the proposed expenditure thereon;
(d) a statement of the technical and financial resources available to the applicant;

and

(e) a statement of the nature of the minerals for which the applicant proposes to explore.

(3) An applicant shall, at the request of the Minister, furnish such further information in relation to his application, or such evidence in support of his application, as the Minister may require.

30. (1) An exploration licence shall—

(a) describe or delineate the lands in respect of which it is granted;

(b) be subject to such conditions as may be prescribed and to such additional conditions as the Minister thinks fit and specifies in the licence;

and

(c) remain in force, subject to this Act, for such period (being a period of not more than two years) specified in the licence.

(2) The Minister shall in determining the conditions subject to which a licence is to be granted under this Part give proper consideration to the protection of—

(a) the natural beauty of the area in respect of which the licence is to be granted;

(b) the flora and fauna for which that area, or any portion thereof, is a natural environment or habitat;

(c) any geological or physiographical features of the area that are of special interest;

and

(d) any buildings or other objects of architectural or historical interest,

and the conditions must be such as, in the opinion of the Minister, afford adequate protection against detriment resulting from the conduct of mining operations in pursuance of the licence.
(3) It shall be a condition of an exploration licence that the Minister may at any time require the holder of the licence to pay to any person an amount of compensation, stipulated by the Minister, to which that person is, in the opinion of the Minister, entitled in consequence of the conduct of mining operations in pursuance of the licence.

31. (1) The holder of an exploration licence shall pay to the Minister annually and in advance such fee as may be prescribed.

(2) The Minister may reduce, remit or refund a fee under this section if, in his opinion, it is necessary or expedient so to do.

Penalty: Two hundred dollars.

(2) The holder of an exploration licence shall furnish the Director of Mines with such information relating to the surveys and other operations conducted by him in pursuance of the licence and such geological samples obtained by him in the course of those operations as the Director may require.

Penalty: Two hundred dollars.
33. (1) Where the holder of an exploration licence has contra­
vened or failed to comply with any provision of this Act or any
condition of the licence the Minister may suspend the licence
(whereupon the licence shall, during the period of suspension, be
of no force or effect) or cancel the licence.

(2) Where a licence is cancelled or suspended under subsection (1)
of this section, the licensee may, within twenty-eight days after the
cancellation or suspension, appeal to the Land and Valuation Court
and the Court may, if it is satisfied that there is no proper ground
for the cancellation or suspension, declare that cancellation or
suspension void.

(3) The Minister may by instrument in writing, subject to such
terms and conditions as he thinks fit, exempt the holder of a licence
wholly or in part from compliance with a condition of a licence or
may, with the consent of the holder of the licence, vary any such
condition.

(4) Where in the opinion of the Minister any land comprised in an
exploration licence is required for a public purpose, the Minister
may, by notice published in the Gazette, excise that land from the
total area comprised in the licence and thereafter the licence shall
not be of any force or effect in relation to that land.

(5) Where the Minister exercises his powers under subsection (4)
of this section, the holder of the licence may apply to the Land and
Valuation Court for an order that the Minister compensate him for
the moneys expended by him in prospecting for minerals in the area
excised from the total area comprised in the licence, and the Land
and Valuation Court, upon the hearing of any such application,
may determine what amount would fairly compensate the holder
of the licence for such expenditure and order that the amount so
determined be paid by the Minister to the holder of the licence.

(6) The Minister shall pay any amount that he is ordered to pay
under subsection (5) of this section out of moneys provided by
Parliament.

(7) The holder of an exploration licence may, with the consent of
the Minister, surrender any land comprised in the licence and there­
on the licence shall not be of any force or effect in relation to
that land.

(8) Where a licence has been issued for a period of less than two
years, the Minister may extend the term of the licence to a period
not exceeding two years.
