Where

\( EV \) is the estimated value

\( V \) is the value that would apply for the purposes of the calculation and imposition of the levy except for this subsection

\( A \) is a reasonable estimation of that proportion of the building or construction work that is attributable to the work carried out by the owner of the land, or by a person who will not be employed or engaged for remuneration to perform any part of the work, expressed as a percentage of the total amount of building or construction work to be carried out.

levy before the commencement of the work.

construction work where the work is to be carried out for or on behalf of a government authority

the financial year during which penalty interest becomes payable under subsection (1).

(3) The Board may for any proper reason remit penalty interest or a fine imposed under
subsection (1) wholly or in part.

(4) The imposition of a penalty under this section does not affect the liability of a project
owner to pay a levy.

Notice of variation

26. A project owner must notify the Board within three months after the completion of
building or construction work if the actual value of the work (as determined in accordance with
the regulations) exceeds by an amount of $25 000, or such other amount as may be prescribed,
the estimated value of the work.

Penalty: Division 6 fine.

Adjustment of amount paid

27. If the Board is satisfied that the actual value of the building or construction work on
completion (as determined in accordance with the regulations) varies by an amount of $25 000,
or such other amount as may be prescribed, from the estimated value—

(a) where the value of the work was overestimated, the Board must refund to the project
owner an amount equal to the excess levy paid;
or

(b) where the value of the work was underestimated, the project owner must pay to the
Board an amount equal to the additional levy that would have been payable if the
estimated value of that work had been the actual value of that work.
Cancellation of project
