"Intermediate district" shall mean any municipality or district within the limits of which the principal Act shall not have been applied as the result of a poll of ratepayers, as provided in section 39 thereof, and through which municipality or district the Company deems it necessary or expedient to erect, carry, or lay its instrumentalities of supply for the purposes set out in section 6 of this Act.

"Instrumentalities of supply" shall include electric lines, aerial conductors, mains, pipes, transformers, wire conduits, and other works suitable to be used for or incidental to the conveyance, transmission, distribution, transformation and/or supply of electricity.
