The Commissioner or any collector appointed by him may recover rates from any person liable, or from the occupier at the time of any demand being made, and after demand on the occupier; and if no sufficient distress can be found on the premises to satisfy any rates for which the occupier is liable, together with all costs, the same rates may be recovered in like manner from the owner, and any person in actual receipt of the profits of any lands shall be liable as owner thereof.

64. If any rates or any arrears are unpaid for the space of twenty-one days after demand in writing shall have been served upon the occupier, or left at the house, land, or tenement rated and assessed thereto, the Commissioner or collector or his assistant may thereupon, without any warrant, enter into any part of the premises and distrain the goods and chattels found therein; or may enter into any other houses or land in the said city, occupied by any person liable to the same rates, and on whom notice to pay the same has been served personally or by leaving the same at his house for him, and distrain his goods and chattels therein and thereon; and if the sums for which the distress is taken be not paid for five days after the distress together with reasonable costs, then the said distress, or so much as shall be sufficient to pay the rates and costs aforesaid may be sold, and any overplus shall be returned to the owner of the goods.

65. In any case in which rates, in respect of any lands shall be in arrear for the space of two years, it shall be lawful for the Commissioner to cause to be published three times in the South Australian Government Gazette a notice in the form of Schedule E to this Act annexed; and if after one year from the last publication of the notice, the rates due at the time of the first publication thereof are still unpaid, the Commissioner may let the same from year to year, and may receive the rents and apply the same towards the payment of the rates, and hold any surplus for the owners of the lands, or by petition to the Supreme Court or any Judge thereof, may apply for a sale of the lands described in such notice, or of so much thereof as may be necessary; and the Court or Judge, on being satisfied by affidavit or otherwise that the arrears are lawfully due, and were in arrear at the time of the first publication of such notice, and that all things required by this clause to be done have been done, shall order the sale of the said lands, or so much thereof as shall be sufficient to pay the arrears and interest at five per centum per annum, from the time of the first publication of the notice, together with all costs of and attending the notice, and the costs of and attending the application, and of and attending the sale by public auction, and the proceeds to be paid into Court; and the Court or a Judge may order payment of the said rates, interests, costs, and expenses, in preference to
to any mortgage or other security; and that conveyance shall be executed by the master or other officer of the Court, to the purchaser, his heirs, and assigns, in such form as shall be approved by the Court or a Judge, which shall vest the legal estate in the said lands, in the purchaser, his heirs, and assigns free from all encumbrances; and the balance arising from the proceeds of such sale shall remain, and be subject to any future or other orders of the Court, for behoof of the party or parties interested therein.

66. All rates and charges for service-pipes and fittings, due under the Waterworks Act, 1858, may be recovered by the Commissioner against the persons who owe the same, in every respect in the same manner as though the rates and charges for service-pipes and fittings had become due under this Act.

67. The Commissioner may cut off the water supply from any lands when the same shall remain unoccupied for three calendar months, or when any rates or charges for service-pipes and fittings in respect thereof shall remain unpaid for fourteen days after the same shall become due; and whenever the lands shall become occupied, and all rates and charges for service-pipes and fittings paid, the supply shall on demand be restored, upon payment of the cost of such cutting off and restoration.

68. It shall be lawful for the Governor, from time to time, by warrant under his hand, to authorize the Treasurer to advance and pay to the said Commissioner, for the purposes of this Act, any sums of money not exceeding in the whole the sum of Two Hundred Thousand Pounds, including any sums heretofore advanced and paid under the authority of the said Act, No. 17 of 1858, and the Acts thereby repealed; and any sums of money so advanced and paid shall be retained by the Treasurer out of any moneys raised by him under authority of the said Acts; and all balances, if any remaining after such periodical payments of capital and interest, shall, with the concurrence of the Governor, with such advice and consent as aforesaid, be returned to the Commissioner.

69. All moneys received by the Commissioner, for or on account of the rates herein authorized to be imposed, after deducting the necessary costs and charges of and attending the collection of the same, and also of the maintenance of the said undertaking, and of keeping up the supply of water, shall be paid by the said Commissioner to the Treasurer, who shall pay off such amount of capital and interest in respect of the moneys raised for the purposes of the said undertaking as may from time to time fall due.

70. Any tenant of lands under a lease for a less period, unexpired, than five years, may recover from his landlord half the cost to which he or his undertenant may be put in causing service-pipes to be laid on to the said lands.

71. The Commissioner may at any time, on the request in writing of the owner of any
of any person or persons residing at any place within two miles of
the main between the reservoir and the said City, take the necessary
steps for supplying such person or persons with water from the said
Waterworks: Provided always, that the expense of the works
necessary for supplying water to any such place as aforesaid shall in
in all cases be paid by the person or persons making such request
as aforesaid: And provided also, that the rates charged shall in no
case be less than those charged to the inhabitants of the said City.

72. It shall be lawful for the Commissioner, out of the moneys at
his disposal, to repay to all persons who may have been supplied
with service fittings, and may have paid for the same; and to allow all
persons who may have been or shall hereafter be so supplied, and
who may not have paid for the same, a proportion of the price
charged thereupon, for so much of the service fittings as extend from
the nearest main to the edge of the land to which such service
fittings shall have been supplied, such proportion to be in all cases
determined by the Commissioner.

73. So soon as the sum of Two Hundred Thousand Pounds,
principal money raised for the completion of the Waterworks,
together with the interest thereon, shall have been paid by means of
the rates hereby authorized, the said undertaking, and the powers
and duties hereby or hereafter conferred and imposed, shall vest in
the Municipal authorities for the said City: Provided that it shall
be lawful for the Governor, with the advice of the Executive Council,
at any time after the construction of the said undertaking is com-
pleted, to appoint the Municipal authorities as aforesaid to be Com-
missioners for the purposes of this Act, and such appointment from
time to time to revoke.

74. A full and sufficient supply of water shall be afforded to all
Government buildings and Establishments free of charge.

75. The Commissioner shall, from time to time, nominate one or
more persons as Collectors, for levying the said rates respectively,
who shall proceed in the same manner, and shall have the same
powers, remedies, and privileges, and shall be subject to the same
regulations and penalties, with reference to the levying of such rates,
as if they were Collectors appointed by the Municipal authorities for
collecting the City rates, and shall pay over the amount of such rates
to the Commissioner, or to any person authorized by him, or, in
default thereof, shall be proceeded against in the same manner as
such Collectors, by any Act now or hereafter to be in force, are to be
proceeded against for non-payment.

76. It shall be lawful for any Collector, to be appointed by the
Commissioner, to sue for, recover, and receive of and from the
person thereto liable, any rate, assessment, or other moneys payable
under the provisions of this Act, before any Court of competent
jurisdiction; and for the purposes of any action, suit, or other pro-
ceedings, such rate, assessment, or moneys, shall be deemed to be
due and payable to such Collector.

77. Any
77. Any person using or allowing to be used the water laid on to lands occupied by him for other than domestic or building purposes, except in cases of fire, or under an agreement with the Commissioner, or under clause 58 of this Act, shall be liable to a penalty of not less than Two Pounds, and not more than Twenty Pounds, for every day during which the offence shall be committed.

78. Any person who shall make a false declaration of the average number of cattle kept by him upon his lands, shall be liable to a penalty of not less than Five Pounds or more than Fifty Pounds.

79. Loans raised under the Acts No. 11 of 1857, No. 2 of 1860, and No. 19 of 1861, and interest thereon, may be, from time to time, repaid out of the rates.

80. The Commissioner shall, in each year, cause an account in abstract to be prepared of the whole receipt and expenditure of all moneys advanced to him, and of all rates or other moneys levied under the powers of this Act, for the year preceding, under the several distinct heads of receipt and expenditure, with a statement of the balance of such account, duly audited and certified by the Auditor-General; and a copy of such account shall, on or before the thirty-first day of December in each year following, be published in the South Australian Government Gazette.

81. In all cases where any damages, costs, or expenses are by this Act directed to be paid, and the method of ascertaining the amount or enforcing the payment thereof is not provided for, such amount, in case of dispute, shall be ascertained and determined and recovered in a summary way by and before two Justices.

82. All fines, penalties, and arrears of money, levied or recovered under this Act, shall, so far as not otherwise specially appropriated, be paid to the Treasurer, to be by him carried to the credit of the said Commissioner for the purposes of this Act.

83. If any person shall have committed any irregularity, trespass, or other wrongful proceeding in execution of this Act, or by virtue of any power or authority hereby given, and if, before action brought in respect thereof, such person make tender of sufficient amends to the person injured, such last-mentioned person shall not recover in any such action; and if no such tender have been made, the defendant may, by leave of the Court where such action is pending, at any time before issue joined, pay into Court such sum of money as he thinks fit, and thereupon such proceedings shall be had as in other cases where defendants are allowed to pay money into Court.

84. All actions and prosecutions to be commenced against any person for anything done in pursuance of this Act shall be commenced within six calendar months after the fact was committed, and not otherwise.
otherwise, and notice in writing of such action, and the cause thereof, shall be given to the defendant one calendar month at least before the commencement of such action; and in any such action the defendant may plead the general issue, and give this Act and the special matter in evidence at any trial thereupon; and no plaintiff shall recover in any such action if tender of sufficient amends shall have been made before such action brought, or if a sufficient sum of money shall have been paid into Court after such action brought by or on behalf of the defendant, together with the costs incurred up to that time; and if a verdict shall pass for the defendant, or the plaintiff become nonsuited, or discontinue any such action on issue joined, or if upon demurrer, or otherwise, judgment shall be given against the plaintiff, the defendant shall recover his full costs as between attorney and client, and have the like remedy for the same as any defendant hath by law in other cases, and though a verdict shall be given for the plaintiff in any such action, such plaintiff shall not have costs against the defendant, unless the Judge before whom the trial shall be, shall certify his approbation of the action, and of the verdict obtained thereupon.

85. There shall be an appeal, in manner provided by the Act of the Governor and Legislative Council, No. 6 of 1850, to facilitate the performance of the duties of Justices of the Peace out of Sessions, with respect to summary convictions and orders from any order of Justices, from any order of a Justice or Justices, under the provision of this Act, and from any order of Justices dismissing an information laid under this Act; and no order of Justices or of the Local Court shall be removed by certiorari into the Supreme Court.

In the name and on behalf of the Queen I hereby assent to this Act.
