53. (1) In the month of December in every year the board shall prepare a separate estimate of the probable necessary expenditure during the succeeding financial year for the establishing and maintaining of fire brigades and for the other purposes of this Act, within each fire district, and within each municipality or district, or part of a municipality or district, in which this Act applies.

(2) No estimate for any one year shall exceed such limit as may be fixed by the Minister, and no estimate shall have any force until approved by the Governor.

54. (1) The aggregate amount of the estimate made pursuant to section 53 for any financial year shall, subject to subsection (2), be contributed and paid to the board in the following proportions:—

(i.) two-ninths thereof by the Treasurer:

(ii.) five-ninths thereof by the insurance companies:

(iii.) two-ninths thereof on behalf of the fire districts, and the municipalities and districts in which, or in parts of which, this Act applies.

(2) If two-ninths of the said aggregate amount exceeds ten thousand pounds, the amount to be paid as aforesaid by the Treasurer shall nevertheless be ten thousand pounds, and the amount by which the said two-ninths exceeds ten thousand pounds shall be contributed and paid (in addition to the amounts mentioned in subsection (1) ) to the board in the following proportions:—

(i.) five-sevenths thereof by the insurance companies:

(ii.) two-sevenths thereof on behalf of the fire districts and the municipalities and districts in which or in parts of which, this Act applies.

(3) The portion of the said five-ninths which is to be paid by any one of the insurance companies shall be in the same ratio to the whole of such five-ninths as the premium income derived from insurance business by that company (as shown in its then latest return pursuant to section 58) bears to the aggregate amount of the premium incomes derived from insurance business by all the insurance companies (as shown by their then latest returns pursuant to section 58).

In this subsection the expression "five-ninths" shall be deemed to include all amounts payable pursuant to subdivision (ii.) of subsection (1) and subdivision (i.) of subsection (2).

(4) If in any case the amount to be paid by a company, as determined by subsection (3) is less than ten pounds the company shall, in addition to that amount, pay to the board the difference between that amount and the sum of ten pounds. Any amounts to be paid to the board under this subsection shall be in addition to the aggregate amount by subsection (1) required to be paid to the board.

(5) The portion of the said two-ninths which is to be paid on behalf of any one of the fire districts, municipalities, or districts shall be in the same ratio to the whole of such two-ninths as the estimate under section 53 for the fire district, municipality, or district, bears to the aggregate amount mentioned in subsection (1).

In this subsection the expression "two-ninths" shall be deemed to include all amounts payable pursuant to subdivision (iii.) of subsection (1) and subdivision (ii.) of subsection (2).

(6) Any amount to be paid under this section on behalf of a municipality or district shall be paid by the council thereof.

(7) Any amount to be paid under this section on behalf of a fire district shall be paid by the councils of the various municipalities and districts which, or parts of which, are comprised in the fire district.

The portion of the last-mentioned amount which is to be paid by any one of the last-mentioned councils shall be in the same ratio to the whole of the amount as the sum collected by the council, during its next preceding financial year, as general rates on property situated in the municipality or district of the council (or in the part thereof which is comprised in the fire district) bears to the aggregate amount of the sums collected by all the said councils, during their respective next preceding years, as general rates on properties situated in all the said municipalities and districts (or parts so comprised).

(8) The amounts to be paid by the various insurance companies, and by the various fire districts and councils, and, in the case of a fire district, the amounts to be paid by the various councils whose municipalities and districts, or parts thereof, are comprised in the fire district, shall be determined by the board according to the principles stated in this section. A notice sent to any of such companies or councils stating
the amount to be paid, and signed by the chairman and the secretary, shall be prima facie evidence of the correctness of the amount.

(9) Any amount to be paid under this section shall be paid by equal quarterly instalments on the first days of July, October, January, and April respectively in the financial year for which the estimates used in determining the amount are made, or by such instalments and on such dates as are determined by the board.

55. Every insurance company which—

(a) has before the commencement of this Act, but since the time next before such commencement when returns pursuant to section 58 of The Fire Brigades Act, 1913, became due, commenced to carry on business in the State; or

(b) after such commencement commences to carry on business in the State,

shall, until the amount of its first annual contribution has been determined under section 54 and the first instalment thereof becomes due under section 54, pay to the board, on each day on which instalments by contributory companies fall due pursuant to subsection (9) of section 54, the sum of two pounds and ten shillings.

56. Any contribution payable under this Act by the council of any municipality or district may (if necessary) be raised by the council by increasing the rates, for the year following the payment of the contribution, by such a sum in the pound as will be sufficient to produce the amount of the contribution: Provided that in any case where this Act applies only in part of a municipality or district the increase of rates shall be only in respect of property situated within that part.

57. Any contribution payable under this Act may be recovered by action or in a summary manner.

58. (1) To enable the board to determine the amounts of the contributions to be paid by the various insurance companies, every contributory company shall, in the month of July in every year, or at such other time as the board directs, furnish the board with a return showing the amount of its premium income for the period of twelve months ended on the next preceding thirtieth day of June, from insurance of property situated within the localities in which this Act applies.
In arriving at the amount of such premium income, a company shall be entitled to deduct—

(a) premiums paid by it for re-insurance, with contributory companies, of property so situated; and

(b) discount, brokerage, and commission allowed by it on premiums on insurance of property so situated.

(2) Every such return shall have annexed thereto a statutory declaration by a director, or the manager, secretary, agent, or attorney of the company, stating that, according to the books thereof and to the best of his knowledge, information, and belief, the return contains a true account and statement of the amount of the premium income mentioned in subsection (1).

(3) If any contributory company makes default in any year in furnishing the return or declaration required by this section, the company and every director, manager, secretary, agent, or attorney thereof who authorises or permits the default shall be guilty of an offence against this Act and liable to a penalty of not less than five pounds nor more than ten pounds for every day during which the default is made or continued. The board may, until the return is furnished with the said declaration, regard the then latest return of the company furnished under this section as its return for the year and may act accordingly.

(4) Any person who wilfully makes a false statement in any declaration as to any return required by this section shall be guilty of an offence against this Act and liable to a penalty not exceeding one hundred pounds.

59. (1) The secretary or other officer having the custody of the books and papers of any contributory company shall allow any person authorised by the board to inspect, during business hours, any books and papers of the company, and to make extracts therefrom in order to verify any return or declaration made in pursuance of this Act.

(2) Any such secretary or officer failing to comply with the requirements of this section shall be guilty of an offence against this Act and liable to a penalty not exceeding five pounds.

60. (1) The council of any municipality or district which, or part of which, is comprised in a fire district shall every year, in the month of March or within such other time as is determined by the board, furnish the board with a return showing the sum collected by the council, during its next preceding financial year, as general rates on property situated
within its municipality or district, or within the part thereof which is comprised in the fire district.

(2) If any such council fails in any year to furnish the said return within the time required by subsection (1) it shall be guilty of an offence against this Act and liable to a penalty not exceeding five pounds for every day during which the default exists.

(3) If any such council furnishes a return under this section which is false in any material particular, it shall be guilty of an offence against this Act and liable to a penalty not exceeding one hundred pounds.
