PRESS RELEASE FROM THE PREMIER, MR. DUNSTAN.

AIR COMPRESSORS PTY. LTD.

1/11/71.

The air compressor and spray painting equipment manufacturers Air Compressors Pty. Ltd. are to set up a \$220,000 factory in South Australia, the Premier and Development Minister, Mr. Dunstan, announced today.

The plant at Salisbury South will initially employ about 20 people.

Mr. Dunstan said the company, which was based at Riverwood, New South Wales, was a wholly owned subsidiary of Instrol Ltd.

The new factory would be built by the South Australian Housing Trust on a five acre site at the corner of Frost and Cheviot Roads.

Estimated cost was about \$145,000 - built on the Trust's usual lease-purchase system, with equipment costing a further \$75,000.

"The plant will be a valuable addition to the growing industrial complex in the Salisbury-Elizabeth area and is a further welcome illustration of the confidence industrialists have in South Australia's potential for development", Mr. Dunstan said.

Establishment of a South Australian operation by the company was a natural extension of its recent development.

It had, for some years, had body castings produced and machined in Adelaide and then transported to Sydney for finishing and assembling.
