STATEMENT FROM THE PREMIER, MR. DUNSTAN.

KANGAROO ISLAND DEVELOPMENT.

11.11.72

A special investigation is being undertaken by the State Government into the tourist potential and development of Kangaroo Island, the Premier, Mr. Dunstan, announced tonight.

He was speaking at a public meeting at Kingscote on the island in support of the ALP candidate for Barker at next month's Federal election, Dr. John Cornwall.

Mr. Dunstan said the study was being made by officers of his department.

Its aim was to make a full assessment of how particular tourist attractions could be developed on Kangaroo Island, at the same time preserving its great natural beauty.

When complete the findings would be discussed with various bodies and individuals on the island.

"We will also approach investors in Australia and overseas who have the capital and the willingness to put money into tourism here."

There is no doubt that Kangaroo Island has the potential to become one of the great holiday playgrounds of Australia," the premier said.

Dr. Cornwall said it was imperative for Kangaroo Island and other areas which relied heavily on primary production that inflation be controlled. The pensioner and the farmer were hit harder than any other group by spiralling costs and prices.

Primary producers must have access to long term low-interest loans if they were to weather the present difficult conditions and develop their properties to economic levels.

Such loans were available in all comparable countries.

A Federal Labor Government would make \$500 million available for this purpose, Dr. Cornwall said.
